## Member News & Reports

Update on my Autogyro Build  
By Paul Csornok

Well, many of you have been keeping up with my progress on my Gyrobee Autogyro, which has not been moving as quickly as I would have liked, but is making progress.

Over the winter, I purchased a use 503 53hp Rotax, a rebuilt "B" gearbox. It took me till just about a month ago to find the time to get everything done and installed. This required fabricating the engine mounts for it.

My propeller was received from GSC a couple of weeks ago and is now mounted on the machine. A beautiful 3 blade Maple prop with polished aluminum hub.

My gages have been received (MGL Flight-2 and E-1 engine monitor), throttle, cables, sensors, and a bunch of hardware for the fiberglass tail I am in the process of building have also been in my possession, just looking for the time to put it all together.

Once my gas tank arrives, I am going to plumb everything and do my break-in of the rebuilt engine.

With July here already, the summer is moving fast. I was hoping to have everything done and start my flight training, but that may not happen this summer. Only time will tell.

Breakfast at Mayfield  
By Paul Csornok

Any one who did not attend Saturday's Breakfast at Mayfield Airport missed a wonderful day to be out and conversing with friends.

The morning presented us with clear skies, light winds and a little dew on the grass. Mike was recovering from a triple bypass, but had plenty of help with cooking and other chores. There were more people driving in than flying, but there were still plenty of aircraft to look at. The food was great! Pancakes, sausage, eggs, fruit, coffee, OJ, plenty of seating

Every month, our members receive a listing of upcoming events in the newsletter, and via e-mail, that tells you what you can plan for at least the next month. I hope it is something that everyone uses and takes advantage of some of the wonderful gatherings that happen each year. "I can't fly there..." you say. Drive! Get some people together and just go. The aircraft that attend are a point of interest and topic of conversation, but not a requirement for attending.

### Hats Now Available with the Club Logo

We now have hats with the club's logo on them and are selling them for \$10. Stop by our meeting and see about getting yours.

### ENGINE REPAIR COURSE for ROTAX 582:

We are scheduling another engine course for October 24th, 25th and 26th. This course will allow you to bring your own 582 in and do a 150 hr maintenance/ inspection or a 300 hr rebuild. If you do not want to bring your engine that is okay also, we will team you up with someone on another engine. We did this course back in 2006 and had a great turn out with 8 engines and 10 people. If you would like to see a few pictures of the last course you can go to this link. [http://www.lightsporepair.com/150\\_hr\\_rotax\\_inspection.htm](http://www.lightsporepair.com/150_hr_rotax_inspection.htm) Disregard the information on the page as we are in the process of updating for this new course. If you would like more info please contact us at the Plymouth number that you see below.
