Anyone Seen a Prop???

Mark Warner

“Its gone for good, some place west of

Toledo in a huge bean field. Hope a farmers combine doesn't run into it. I had no indication of anything being amiss, no vibrations, nothing. It just over revved and that was it, I was headed for a bean field. I got out, thinking it was a drive belt, but the prop was gone and sheared the bolts off. “

Take this as a notice to check your hardware, all of it. Just because you know you torqued the bolts to the correct foot pounds doesn't mean that it is still accurate. As metal and wood expands and contracts, tolerances can change and bolts can become loose. Vigilance is necessary to insure a safe flight so check them and make sure you have a happy aviation adventure.

Hats Now Available with the Club Logo

We now have hats with the club's logo on them and are selling them for \$10. Stop by our meeting and see about getting yours.

August Activities and Beyond

Saturday, August 1, 2009

North Coast Lite Flyers annual: Jonathan Gamble Memorial Picnic at beautiful YODER AIRPORT in Louisville, Ohio. (Airport is located just east of route 44) Open to all that are interested in Ultralights and Light Sport Flying. Plenty to eat. Please bring a dish to pass if you can. Table service, Burgers, Dogs, and Soda provided by NCLF. Bring the kids. This is your chance to see a REAL OLD TIME AIRPORT. Don't miss seeing the Fokker D7 Biplane. This event held RAIN or SHINE. Event starts at 3 PM and food should be ready about 4:30 PM.

North Coast Lite Flyers Meeting Comfort Cafe, Mantua, Ohio at 6 PM. Bring photos of any projects you have been working on or items of interest. Bring the wife and kids and come hungry.

ENGINE REPAIR COURSE for ROTAX 582:

We are scheduling another engine course for October 24th, 25th and 26th. This course will allow you to bring your own 582 in and do a 150 hr maintenance/ inspection or a 300 hr rebuild. If you do not want to bring your engine that is okay also, we will team you up with someone on another engine. We did this course back in 2006 and had a great turn out with 8 engines and 10 people. If you would like to see a few pictures of the last course you can go to this link. http://www.lightspportrepair.com/150_hr_rotax_inspection.htm Disregard the information on the page as we are in the process of updating for this new course. If you would like more info please contact us at the Plymouth number that you see below.
