Only October and November Meets left in '09

Our last two meetings are approaching fast. What have you been working on? What have you been flying? Where have you been flying too? This is what the monthly meetings are all about. A chance to share the air when we can't be flying in it.

Only two club meetings left in 2009!

Next Club Meeting – October 3, 2009

Club Meetings are normally held **the first Saturday of each month** at 6PM at The Comfort Café in Mantua. Any changes to this schedule will be posted here in the Flyer. Prospective members, guests and family members are **always welcome**.

Member News & Reports

STA-Light Aviation Closes

STA-Light Aviation of Michigan has closed it's doors They were a Rotax Repair Station and the place that I bought my propeller from. I only had one dealings with them, but they treated me well. First Sky Sports, and now STA-Light.

NCLF Sign to be hung at Comfort Cafe

Last meeting, a couple of the officers were approached by the owners of the restaurant about a sign to be displayed. Research was

done at a couple of on-line printing companies and an order was placed. It is scheduled to be delivered in time for this month's meeting. Here is a sneak preview...

For Sale and Wanted area updated

The For Sale and Wanted areas of the newsletter will be cleared out at the end of the year. If you have something for sale or you are looking for something, please send a description of the item along with price and contact information. It will be placed in the April newsletter and will remain there until notification of a purchase has been sent in or until the end of the year. If you have something listed in either section, please keep me informed so I can make sure the section is updated and accurate.

Yoder Airport is Loosing it's Lease

Forest Yoder brought us some sad news at the last meeting. It seems that the airport will not be in operation next summer. The owners are not renewing the lease on the property. I personally want to extend my thanks to Forest for all the past picnics he has hosted there. All of the hard work and planning that goes into getting the airport ready for a gathering was always appreciated.

Gyro Tow Training at Barber

Some of our members are also members of PRA Chapter 19, out at Barber Airport. The club has been doing some Towed Gyro Training out there for a good portion of the summer and will be continuing to do so as weather permits. If you have never seen a gyro or Towed Training in a gyro before, you can usually find them on the weekends getting in some practice. They are working hard to get their skills honed so as to begin training club members next year. This, as well as members aircraft starting to come together, will start to show some increased activity in the rotor community in 2010.

October Activities and Beyond

Saturday, October 3, 2009

North Coast Lite Flyers Meeting Comfort Cafe, Mantua, Ohio at 6 PM. Bring photos of any projects you have been working on or items of interest. Bring the wife and kids and come hungry.

ENGINE REPAIR COURSE for ROTAX 582:

We are scheduling another engine course for October 24th, 25th and 26th. This course will allow you to bring your own 582 in and do a 150 hr maintenance/ inspection or a 300 hr rebuild. If you do not want to bring your engine that is okay also, we will team you up with someone on another engine. We did this course back in 2006 and had a great turn out with 8 engines and 10 people. If you would like to see a few pictures of the

last course you can go to this link. http://www.lightsporepair.com/150_hr_rotax_inspection.htm Disregard the information on the page as we are in the process of updating for this new course. If you would like more info please contact us at the Plymouth number that you see below.
