Only Two More Meetings Left For The Year

October has arrived, and with it, the promise of colder weather. With only two more meetings on the schedule, people are trying to get in one or two more trips before being grounded for the winter.

As you look at the events remaining, the list is getting shorter. I know I will not miss Sunset Strips Chili Fly-In. They always have some great food and the temperature just seems to make it taste even better.

John has been doing a great job spreading the word, but remember, he needs your help to find the fun trips, so make sure you drop him an e-mail when you hear of one.

Projects for the Winter

Does anyone have any projects they are going to be starting or finishing up this Winter? Mike has finished his plane, and Don has gotten his back in the air. I also know that Don is going to be working on the Titan he bought off of Gerald. Anyone else? Let us know by sending me a description and some photos.

Event Listing for the Club

John has started e-mailing the club in regards to flying events. The e-mails come from "North Coast" with an address of nclflyers@yahoo.com. Please make sure to add this to your e-mail contacts so it doesn't hit your spam filter.

He also needs your help in supplying events to the list. Per his e-mail...

Remember, we depend on all of you send information to us. Thanks all who have sent information!

We are trying to keep it simple.

Please send any additional information to:

NCLFlyers@yahoo.com

It would be very helpful if you could put it into the following format, so we can.

=====
Date start time-end time (Eastern time, military format)
Airport ID Airport name
Name of event
Comments
-

Any time you hear of a flying event, make sure to drop John a note.

October Activities and Beyond

10/05 08:00
KTSO Carrol County
A group of NCLFs plans to depart Mayfield and fly to Carrol County for breakfast. They then plan to go to "Graham's"
Did not specify if 08:00 is their planned departure time or arrival time, but our best guess is departure, with arrival about 08:50.

10/11 15:00 - sunset
10/12 dawn - ??:00
